WELCOME!

Welcome to the first issue of "iAM Smart" Sandbox Bulletin! "iAM Smart" Sandbox Bulletin is a e-newsletter aiming to share with you the latest development of "iAM Smart" and Sandbox.

"iAM Smart" is one of the Government's key infrastructure projects for smart city development which provides all Hong Kong residents with a single digital identity to conduct Government and commercial transactions online. To support commercial organisations in adopting "iAM Smart", the Office of the Government Chief Information Officer ("OGCIO") partners with Cyberport to implement the Sandbox since March 2020. "We are thrilled to see the publication of such new e-newsletter to maintain close contacts with the Sandbox participants and provide them with the latest news related to "iAM Smart".", said Mr. Daniel Cheung, Assistant Government Chief Information Officer (Cyber Security & Digital Identity) of the Hong Kong SAR Government.
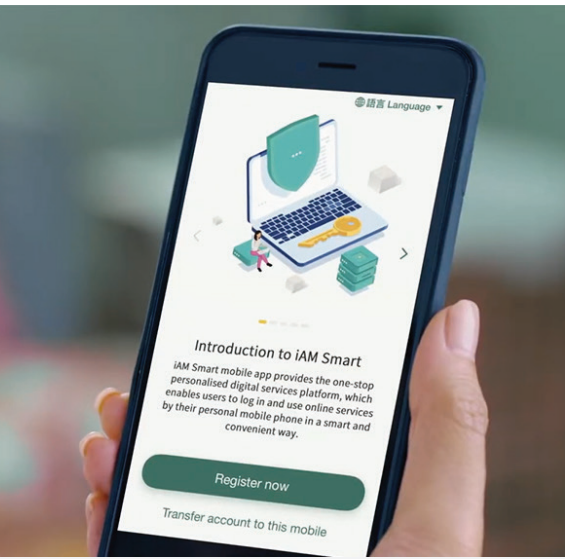

"As Hong Kong's digital technology flagship, Cyberport is committed to driving the development of Hong Kong's digital economy, nurturing more young entrepreneurs and promoting Hong Kong as an International I&T Hub. We are honoured to be partnering with OGCIO to launch the Sandbox to support the commercial sector in their adoption of "iAM Smart". We look forward to rolling out more services like this new e-newsletter to promote the adoption of "iAM Smart" among the business community.", said Mr. Howard Cheng, Chief Operating Officer of Cyberport.

"iAM Smart" Brings New Business Opportunities

Need to conduct secure online identity verification → Provide golden source of identity information

TOP NEWS

Record Breaking "iAM Smart" Registrations

Since its launch in December 2020, "iAM Smart" has been gaining momentum and support from the public. The number of "iAM Smart" users has already topped 1.8 million as of February 2023, of which more than 600,000 are "iAM Smart+" users (i.e. those can use digital signature function of "iAM Smart"). Currently, there are more than 250 government and commercial online services supporting "iAM Smart". Among all the "iAM Smart"-enabled online services, the popular services include "eTAX", "Leisure Link Internet Booking Services" and the "Online Application for Renewal of Vehicle Licence".

Sandbox Now Opened to Culture Sports and Tourism Sectors

Sandbox is now opened to the culture, sports and tourism sectors, following the previous success launch to the financial sector, ICT sector, telecommunications sector, healthcare sector and education sector. As of February 2023, the number of Sandbox participants has well exceeded 350 and over 60 companies have already conducted "iAM Smart" integration testing before production run of their online services. Apart from provision of the testing environment, the Sandbox also arranged regular free technical trainings / webinars and provide helpdesk support for the Sandbox participants.

SUCCESS STORIES

iFAST becomes the first wealth management fintech platform to adopt "iAM Smart" for online account opening.

After its first adoption of "iAM Smart" to the FSMOne mobile app for account opening in November 2021, iFAST Financial (HK) Limited ("iFAST") announced again the extension of the adoption to iFAST Global Prestige Platform and iFAST Central Platform as well in November 2022. Wealth advisors and clients of both platforms could enjoy seamless account opening and activation by using "iAM Smart", which enables the client's identity to be authenticated securely anytime and anywhere. iFAST looks forward to exploring more extensive use of the various functions of "iAM Smart" to bring more innovative digital experiences to clients and to help promote the further development of the smart city.
